### THE CONTROLLER DAMPER

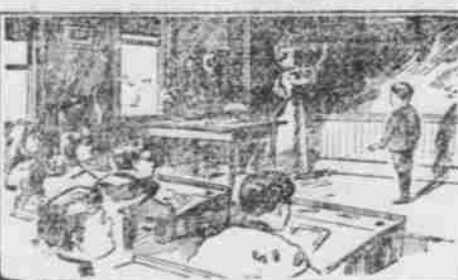

furnished with MOORE'S STEEL RANGES is one of the little things which mean so much to you in the long run. Its an automatic check on the coal pile which earns dollars every month, and besides it does the work better. It enables you to keep the fire just right. It does not go out, neither does it get too hot and burn things. We want to show you this and the other handy devices on these ranges.

Moore's Ranges in 34 different styles, from \$20 to \$75; quick bakers; fuel savers; big square ovens.

### The Boy or Girl

who failed in school last year is very apt to be behind in his studies again this year.

A large per cent of school failures are due to defective vision.

If your child appears dull or slow in school you should try to find the cause and remedy.

If the cause is defective eyes a pair of right glasses often transforms the so-called dull pupil into a bright student. Don't neglect your children's eyes. Let us examine them. Glasses recommended only when necessary.

**MISS BUFORD HOME**—Miss Bessie Buford has returned to Phoenix after spending the summer in Santa Cruz, Sacramento and Los Angeles. Miss Buford is a trained nurse, and will make her home for the winter with her sister, Mrs. W. E. Rhodes.

**SPED THE PARTING GUEST**—The friends of W. J. Clancy gave him a God-speed banquet at the Ford hotel grill room Saturday night. It was a very pleasant affair and was attended by a score or more of the acquaintances of Mr. Clancy. He left last night for Seattle to join Mrs. Clancy, and his stay there will be indefinite. Mr. Clancy has been connected with the firm of Goldwater & Bro. since its establishment in this city several years ago.

**MOSSBACKS**—Every town has its mossbacks but Douglas has a little bunch of them that ought to be brought to the Arizona fair as curiosities. Free delivery of mail has been suggested for Douglas and the project is being opposed by two or three small merchants who have stores near the postoffice and who say that their own business will be greatly injured if free delivery is instituted so people will not have to pass by their doors two or three times a day. It might be cheaper for Douglas to buy these merchants out than to have her growth and prosperity interrupted.

**A TEMPORARY RETURN**—Dr. J. M. Ford came back to the city yesterday and will remain only a week or two when he will go back to Kansas City. He will return for the winter about November 1. This is a business trip. At the request of the Union National Bank of Kansas City, he accompanied Theodore Thorne of Ossining, N. Y., who comes to settle the affairs of his brother, W. E. Thorne, who died three weeks ago. Mrs. Ford and Ernest Ford and wife are spending the summer and early fall at Excelsior Springs, Missouri's most famous summer resort.

**BACK FROM MARKET**—Charles Korrick, proprietor of the New York store, and Mrs. Katie Kirkland, who has charge of the millinery department, returned home yesterday from a visit of six weeks spent in the eastern markets, principally St. Louis, Chicago, New York, and Boston. Mr. Korrick says he had a fine time and bought a large stock of goods for the coming season but he was glad to get home again as the weather in New York and the other eastern cities was not all the time what it should have been, or what it would have been if he had had the making of it.

**DR. CRAIG HOME**—Doctor and Mrs. Craig arrived yesterday morning and are guests of the Hotel Adams. Dr. Craig left here early in the summer and at Wickenburg joined the famous "caravan" that crossed the desert to Nevada. But he never had any intention of digging gold in those parts and at Bullfrog he left the derbies, went to Tonopah, and from there to Santa Barbara, where he was married. Accompanied by his wife he then visited Portland, attended the annual meeting of the American Medical association, returned to Santa Barbara for a few weeks, and finally leaving for home stopped over a week or so in Los Angeles. He has been away a long time now but says he has finished his running around for a while and is again ready for hard work. Mrs. Craig, though having visited Phoenix before, now for the first time calls it home and it is sincerely hoped she will be as pleased with the town as are most good people who come here to live.

**BULLETIN NO. 51**—The agricultural experiment station of the University of Arizona has issued bulletin No. 51, which ought to prove a very interesting and valuable one to the agriculturists

of the territory, though it contains nothing new for the close readers who secure all the "timely hints" as they are issued from the experiment station. Bulletin No. 51 is a compilation of the "timely hints" issued during last year and as late as January 30 this year, on the following subjects, some of which, if not all, should interest every farmer in Arizona: "Bee Products in Arizona," "Sugar Beet Culture," "Concerning Seed Germination," "Potato Culture," "Singed Cacti as a Forage," "Pickling Olives for Home Use" and "Pear Culture." Some of these papers are of special interest to this valley and in view of the fact that the bulletins are supplied free of charge to every person who will send his address and request to the experiment station at Tucson, it is expected there will be an unusual demand for them.

### A TEN DAYS VACATION

The Things Col. Johnstone Saw on The Coast.

Justice C. W. Johnstone returned yesterday morning from a vacation of ten days spent at Los Angeles and nearby coast resorts. He made a program before he left and adhered to it in every particular so that he had a very enjoyable time. The Phoenix contingent is beginning to desert the coast, still some of the Phoenixians who are there have money left and will remain a little while longer.

The Salton sea is continuing to become more of a sea than ever and is encroaching upon the latest Shoo fly. Col. Johnstone stopped at Yuma on his way back and spent a day with the superintendent. He made a program before he left and adhered to it in every particular so that he had a very enjoyable time. The Phoenix contingent is beginning to desert the coast, still some of the Phoenixians who are there have money left and will remain a little while longer.

The Sixth Avenue hotel now open for guests. The dining room under the immediate supervision of Mrs. Kelso will open the 15th of September.

Have your pianos tuned by the HAMILTON BROS., graduates of the N. E. Conservatory, Boston, Mass. Orders left at Redway's Music Store or French's Jewelry Store will receive their prompt attention.
